Social agents, institutions and norms

per

Frank Dignum

**Utrecht University
The Netherlands**

Introduction on social agents, both theory and practice.

- What are important elements of agents that have to act as part of a human/agent society and how do these elements interact?
- How do we design agent societies taking social aspects into account
 - *OperA,
 - *HarmoniA and,
 - *OMNI frameworks will be treated
- Institutions as a means to model concepts both in theory as well as in practice.
- Norms as the prime regulative mechanism for agent societies.

agent societies.
