Paper submission: Authors are invited to submit a draft of a full paper describing original, unpublished research with at most 12 pages (in LNCS style or similar). Proofs omitted due to space constraints must be put into an appendix to be read by the program committee members at their discretion. Electronic submissions should be formatted in postscript or pdf.

The proceedings will be published in Springer’s LNCS series. Simultaneous submission to other conferences or workshops with published proceedings is not allowed.

See the conference website or contact the workshop organizers for further information.
